Bagger Mid-Control Kit

- Mid Control foot control kits for FLT Touring / Bagger models
- Innovative design utilizes the factory floorboard mounts, allowing the mid controls to install in the factory foot control mounting locations on the frame
- The foot control mounting design allows for less vibration than other engine mounted mid control kits
- Mid control mounts are made from CNC bent steel tubing for maximum durability and increased ground clearance
- Shift and brake arms are CNC machined from billet aluminum
- Bolt-on installation for factory exhaust / headers and aftermarket pipes
- Extensive RD and road tested for smooth shifting and braking function
- Mid Control kits do not include footpegs, shift peg and brake peg, allowing the rider to add their preferred style or color pegs
- Accepts any male mount footpeg set and HD shift/brake peg

Unit: Kit , Qty.: 1

Bottom to Top Mount Round Speedometer Conversion Kit for Ricks Club Style Riser Kit

This kit contains everything to convert a Rick's Club Style Pullback S Riser Kit with Bottom Mount Round Speedometer to a Club Style Pullback S Riser Kit with TOP Mount Round Speedometer.

- Suitable for OEM speedometer of Low Rider S Models
- Adjustable angel of the speedometer housing
- Note: Speedometer not included

Part#: 930423 , Fitment: 20-24 FXLRS , Color: Black, Anodized , Unit: Kit , Qty.: 1

Club Style Pullback Riser Kit for Digital Speedometer

- Suitable for OEM digital speedometer of Low Rider ST, Softail Standard, Street-Bob (and Koso D2)
- Including handlebar clamp „Torque Bar“ for optimal stiffness
- Including riser screws and riser-rigid mounting kit with 4 x stainless steel bushings
- Clean look and no visible cables due to internal routing through covered cable cannels down the risers and cover on top of the triple clamp!

Color: Black, Anodized , Certification: With Approval , Clamp ø: 1 1/4" , Unit: Kit , Qty.: 1

Solid Riser Bushings

- Solid riser bushings for M8 Softtail models from 2018-up
- Recommended for 6", 8", or 10" Club Style risers
- High-strength aluminum
- CNC machined
- Kit contains 4 parts

Part#: 930288 , Fitment: 18-24 Softtail , Color: Black, Anodized , Unit: Pack , Qty.: 4

Riser Kit for Nightster RH975

- CNC-machined from billet aluminum
- Works with factory triple tree, gauge housing and cables/wiring harness
- Improved ergonomics for increased control and comfort
- Moves the factory handlebar and gauge assembly up and back towards the rider

Part#: 930166 , Fitment: 22-24 Nightster RH975 , Color: Black, Anodized , Unit: Kit , Qty.: 1

Flat Type 2 Pole Neoprene Molded Connector

This flat type 2 pole neoprene molded connector with 12", 18 gauge wire is ideal for connecting electrical systems.

- Pre-wired
- Ready to install
- Molded case
- All-round weather protection

Part#: 928098 , Field of Application: Universal , Unit: Set , Qty.: 1

Delco Type Voltage Regulator

- OEM equivalent electro-mechanical, voltage regulator
- For 12V Generator
- Heavy duty, shock mounted steel base
- Vibration resistant internal wire connections
- Large diameter contact surfaces
- Black enamel

Part#: 928099 , Fitment: 65 Panhead, 66-69 FL Shovel, 65-77 XLH , Color: Black , OEM #: 74510-64 , Unit: Each , Qty.: 1

Method™ Clear Series Air Cleaner

The Method® air cleaner designed by Arlen Ness motorcycles features a new Patent-Pending Oil Catch / Reservoir. To ensure no oil saturates the filter and restricts your airflow, the integrated oil catch collects any excess engine oil before it reaches the air filter. The Bolt-on design allows oil catch to be serviced when you service the filter element.

- Hard coated polycarbonate window
- Patented Design (US Patent: D852,680)
- Patented backing plate technology (US Patent: US 10,851,741 B1)
- CNC machined from forged billet aluminum
- Patented oil catch / reservoir
- Increases performance and mileage
- Eliminates oil blow-by on M8 engines
- Black pre-oiled performance air filter (Re-usable/washable)

Mini 22 Air Cleaner

The Mini 22 Intake is a compact performance air cleaner that features a 4.5" tapered all-black filter design with an angled billet top for optimum leg clearance.

- 22° Angled Performance Filter design
- Patented hidden breather technology
- Utilizes our high flow velocity backing plate, used in both Monster Sucker & Velocity series air cleaners
- High performance black pre-oiled air filter designed for both form & function
- Increased Horsepower, torque & mileage
- Excellent Leg Room
- M8 applications include servo cover

Stage 2 Oval Upgrade Air Filter

- Stage 2 Oval Performance Air Filter Kits for factory oval HD air cleaners both increase performance and add style to the engine
- Features a performance filter with a pleated top to take in air from the sides and top of the filter for maximum airflow
- Filter cover, spacers and clamps are all CNC machined from billet aluminum
- Performance air filter is made from high-flow black pre-oiled cotton media
- Increased filter height specially designed to increase airflow without reducing leg room
- Over 50% more air filter surface area than paper filters found in factory oval air cleaners
- Dyno testing has shown up to a 3hp increase after installing the upgrade filter on factory displacement M8 engines; up to 5hp gain for 124" big bore M8 engines
- Each filter kit includes a performance filter, billet air cleaner cover, billet spacers and clamps
- Note: Requires OEM/HD (Ventilator®) Oval Backing Plate

Part#: 930147 , Fitment: 18-20 FLFBS 114, 18 FLFBS 114 ANX, 18 FLFBS 114 ANV, 18-20 FXBRS 114, 18 FXBRS 114 ANX, 21-24 FLFBS, 21-22 FXBRS, 22-24 FLHCS, 23 FLFBS ANV, 23 FLHCSANV , Field of Application: For oval Screaming Eagle ventilator air cleaners and M8 special / ST models equipped with HD oval ventilator air cleaner backing plates , Color: Black, Anodized , Unit: Kit , Qty.: 1

Air Cleaner Rain Sock

Rain sock's for Arlen Ness air cleaners will prevent water from getting to your filter and into the engine. Each pre-filter has been engineered to add an extra layer of protection from water and other debris without restricting airflow.

- Specially designed for Arlen Ness intakes
- Made in the USA
- 100% Monofilament polyester with water repellent finish
- Hydrophobic technology repels water in all weather conditions
- Deflects dirt and debris

Color: Black , Unit: Each , Qty.: 1

EZ-Install Type Pushrod Set

EZ-Install pushrods can be installed without removing gas tanks or rocker boxes. Stock pushrods can be cut and removed easily. If you are using bolt-in cams, this is a big plus! These pushrods are a great match for all Andrews camshafts. Aluminum pushrods are lighter while the chrome-moly steel pushrods are more rigid for high performance. Aluminium types are made in anodized aluminum.

Camshaft for Milwaukee Eight

Milwaukee 8 bikes are available in both 107 and 114 cubic inch engine sizes. With high efficiency four-valve heads, M8 engines show great potential for performance gains especially with new design Andrews M8 series camshafts.

Keep in mind, cam timing specs for four valve heads look very different from camshafts designed for two valve applications. Engines with four valve heads have much greater flow efficiency so cam timing durations are a lot shorter.

Unit: Each , Qty.: 1

Transmission for 6 Speed Twin Cam A

Ultima's® 6-SPEED Transmissions are the ultimate upgrade for the early model Twin Cam A engines. These transmission cases are designed to be a stronger stock replacement case. They are packed with new features that meet or exceed standards expected of much higher priced transmissions.

- Gears and shafts made from hardened 8620 steel giving you years of service with big inch engines
- Pro-cut lead-in ramps for positive shifting
- Hardened steel forks for durability and longevity
- Roller detent gives you smooth, positive shifting action
- Billet trap door
- Transmission case machined from permanent mold A356-T6 Aluminum
- Close ratio 2.94 low gear set
- Assembled by professionals and bench tested
- Improved spring material composition
- Cable operated clutch release
- Designed to use OEM style speedometer sensors
- Extended oil filler cast into case to allow clearance for longer starters

Fitment: 01-05 Dyna, 01-06 Touring , Unit: Each , Qty.: 1

924999	Raw Housing, Chrome Covers

Power Clutch 2.0

The combination of adjustments to the Power Clutch and the additional new "Clutch Control" offers the best possible clutch performance. No slipping, no problems when adjusting and a properly separating clutch - This update solves all the challenges of the M8 models and offers outstanding smoothness.

- Improved performance
- Replaces OEM part
- Reduces clutch lever force by an average up to 45-50%
- Easier to adjust
- Improved pressure point
- Kit includes "Müller clutch control"

Part#: 930521 , Fitment: 21-24 Touring, 18-24 Softail, 21-24 Trike , Operation Type: Cable Clutch , Unit: Each , Qty.: 1

Clutch Control

The Müller Motorcycle Clutch Control replaces the plastic part that connects the lower cable to the gearbox and the upper part of the clutch cable to the lever in the original. The aluminum Müller Motorcycle Clutch Control is more precisely adjustable and does not wear out like the OE part.

Part#: 930522 , Fitment: 21-24 Touring, 18-24 Softail, 21-24 Trike , Operation Type: Cable Clutch , Unit: Each , Qty.: 1

ABS Wheel Bearing

- ABS wheel bearing for factory wheel sizes and custom conversions
- Custom conversion bearings available for 21", 23" and 26" wheels
- Eliminate ABS malfunction and warning lights when using oversized wheels
- Sold each

Fitment: 14-20 Sportster, 12-17 Dyna, 11-24 Softail, 09-24 Touring, 19-24 Trike, 08-17 V-Rod, 21-24 Sportster RH, 21-24 Pan America , Diameter: 52 mm, Axle ø: 25 mm , Unit: Each , Qty.: 1

PART#	FITMENT NOTE	DESCRIPTION	OEM #

Dash A Dashboard Indicator

Almost invincible when turned off, but unbeatable in action: Thanks to the mounting position under the handlebars, the new Dash indicators virtually disappear visually at the front of the motorcycle. At the same time, the Kellermann Dash indicators offer maximum brightness with minimum size. This means that the credo of Kellermann's compact indicators now also applies to the new generation of dashboard indicators: „sensationally small - spectacularly bright“.

The optimized light control of the new Dash family is also achieved by a sophisticated system of lenses and reflectors. The Kellermann HighPower LED** and EXtranz® - Extreme Optical Transparency technology are used here.

The complete electronics of the Dash A Dark are in the casing, this indicator can be plugged into the 12 volt net directly.*

* Possibly electronic equipment is needed to regulate the flashing rate.

** Combination out of the IC operated Longlife Protection Guard® system with high-performance-LEDs latest type of construction.

- Sensationally small, spectacularly bright
- EXtranz® - Extreme Optical Transparency Technology
- Kellermann HighPower LED Technology
- Longlife Protection Guard®, IC operated, 330 kHz
- High quality metal housing
- Suitable for 12 volt DC applications
- European design protection
- Dimensions: 31 x 23 x 13 mm
- ECE-tested for front

Fitment: 18-24 Softail , Color: Black , Certification: E-Approved , Unit: Each , Qty.: 1

Fury Semifairing

Enhance the Harley-Davidson Sportster S with the Fury Semifairing for improved aerodynamics and a personalized look. Batwing style inspired by white sharks, perfectly integrates with the motorcycle's tank. Reduces air impact on the rider, minimizing turbulence and fatigue. Made from durable ABS plastic and 4 mm thick CN acrylic screens (must be purchased separately), offering high resistance to impacts and aging. Available in matte black or glossy black. Matching screens are available as Sport (aggressive and minimalist) and Touring (better protection), available in clear, tinted, dark tinted, and black (only Sport screen). Easy to install with the model related bracket kit containing instructions and necessary hardware. All bracket kits in conjunction with the Fury Semifairing are approved by the German KBA. Select the screen of your choice.

The Approval Document is valid for the following Models: 21-24 Sportster S RH1250S

Replacement Windscreen for Low Rider ST

The Santee Replacement windscreens for Low Rider ST enhance the aerodynamic protection of your motorcycles with original semi-fairings, perfectly complementing their aesthetic. Available in Sport (238 mm) and Touring (385 mm) versions, riders can select the best fit for their needs. Wind tunnel-designed, these screens tilt closer to the rider, reducing frontal air impact, eliminating turbulence and helmet vibrations, and significantly increasing comfort and reducing fatigue. The Sport version reduces aerodynamic pressure by 30%, while the Touring version achieves a 47% reduction. Manufactured from 4 mm thick acrylic, these screens are highly impact-resistant and transparent. Their rounded edges enhance safety and meet stringent standards like the German regulations. Installation is straightforward, requiring no mechanical expertise. Fits to the OEM mounting points!

The Approval Document is valid for the following Models: 22-24 FXLRST

Fitment: 22-24 FXLRST , Certification: With Approval , Unit: Each , Qty.: 1

Replacement Windscreen for Sport Glide

The Replacement windscreen for Softail Sport Glide provide enhanced aerodynamic protection for your motorcycles with original semi-fairings, perfectly complementing their aesthetics. The windscreens come in two versions: Sport (150 mm) and Touring (250 mm). The wind tunnel-tested design directs airflow away from the rider, reducing turbulence and helmet vibrations, significantly increasing riding comfort. The Sport version decreases aerodynamic pressure by 30%, while the Touring version achieves a 47% reduction. Manufactured in Europe from 4 mm thick acrylic, the windscreens are highly impact-resistant. Their rounded edges enhance safety and meet strict standards such as the German regulations. Installation is simple and requires no mechanical knowledge. Fits to the OEM mounting points!

NEW PRODUCTS

Medium Pro Side Mount License Plate Bracket

The Thunderbike Medium Pro side mount bracket is the logical further development of the popular Medium and Long Thunderbike side mount licence plate brackets. The lateral bracket ensures an absolutely clean rear end, as the standard central number plate moves to the left-hand side and the view of the rear tyre is unobstructed. The medium length allows the licence plate to be fitted in accordance with regulations, so that the licence plate fits perfectly into the silhouette of the bike. The original mounting construction of the rear axle is retained, which also guarantees the final strength of the rear axle.

- Powder coated stainless steel
- Unrestricted use of axle covers possible
- Robust construction ensures less vibration of the licence plate
- Variable positioning of the licence plate possible
- Including mounting hardware
- License plate base plate and lighting accessories sold separately

Certification: With Approval , Unit: Each , Qty.: 1

Night Leg Bag

The cool-looking compact Night leg bag from Jack's Inn 54 has a large main zippered overlap pocket, a second zippered pocket and a secret inner pocket with a zipper. The adjustable waist strap and adjustable leg straps guarantee a comfortable fit.

- Full Cowhide Leg Bag Night
- 2 large zipper compartments with flap on the front
- Adjustable leg strap
- Adjustable belly belt
- 1 large zipper compartment on the back
- Dimensions: 30 x 20 x 4 cm
- High quality metal parts
- Note: Leather is tanned animal skin - a natural product. Irregular grain and possible abrasion of the color are not defects of the product, but a guarantee for the authenticity of the finely polished leather and the vegetable tanning. Traces of use, such as scratches, are also part of the intended look of brand-new bags and do not constitute a defect. It is typical for this leather to show signs of wear after a short time. It is recommended that you do not use any care products at the beginning, as this is a desired effect. Sufficient protection is provided as the leather is oiled and/or waxed.

Mudslide Waist Bag

A small all-rounder in terms of function, quality and appearance: the Mudslide is a belt pouch that exceeds all expectations upon closer inspection. The Mudslide is made of embossed cowhide leather, treated with natural waxes and oils. This belt bag, with enormous vintage character, has three main compartments, all of which are protected by zips. There is a small front compartment at the front and 2 large main compartments at the top of the bag. The belly strap of the Mudslide can be easily adjusted to any size and is made of a material mix consisting of cowhide and washed canvas in a used look to further emphasise the vintage character of the bag. The leather of this rocking rough belt bag softens through personal handling, darkens over time and develops an incomparable very individual look. This little wonder is an incredibly functional and visually perfect companion for events, trips or motorbike tours to protect and transport the most important and personal things of the day. Complete your outfit now with this Jack's Inn 54 accessory of the extra class.

- Fanny pack Mudslide
- Sturdy, high-quality roughened cowhide leather
- Treated with natural waxes and oils
- Bad Ass motif illustration fully embossed on the front
- Small front compartment with nylon zipper and leather zipper puller
- Roomy front compartment with nylon zipper and leather puller
- Large compartment on the back
- Sturdy resilient lining
- Jack's Inn 54 logo embossing on the backside
- Waist strap made of leather and „washed canvas“ in vintage look adjustable up to max. 90 cm
- Carabiner closure
- Dimensions: 29 x 14 x 7 cm
- Note: Leather is tanned animal skin - a natural product. Irregular grain and possible abrasion of the color are not defects of the product, but a guarantee for the authenticity of the finely polished leather and the vegetable tanning. Traces of use, such as scratches, are also part of the intended look of brand-new bags and do not constitute a defect. It is typical for this leather to show signs of wear after a short time. It is recommended that you do not use any care products at the beginning, as this is a desired effect. Sufficient protection is provided as the leather is oiled and/or waxed.

PART#	COLOR
929777	Black
929778	Brown
929779	Oilpulled Black
